

Hi, My friend Mary has 22 acres of farmland about 30 min outside of Cincinnati Ohio. It has outbuildings, a home, tractors etc.

She is looking for young farmers who want to steward the land & help build community. Long term lease avail & possibility to purchase. She is negotiable with rent. You can rent just a few acres to get started or rent all 22 acres.

Mary does not use much email, & its best to get in touch with her via phone. [513-734-6486](tel:513-734-6486)

She is living on the farm now, she would be willing to move into an inlaw if the new farmers needed more house. Mary works full time & has 1 hour commute each way.

You could not ask for a more easy going landlord.
